THE BRITISH COLONIST

Tuesday Morning. February 2, 1864.

TO ADVERTISERS.

were agreed upon its desirability.

But we are travelling rather wide of our subject which relates merely to the votes or supply, nevertheless in anticipation of an address, which will bring before the Home Government the more intimate connection of the two colonies, the suggestion may not be inappropriate. So far as the office of the judge of the colony is concerned the only question that will probably present itself for consideration, is whether or not, in passing a vote for the salary of the Chief Justice, an allowance is to be made for the probable contingency of an acting Chief Justice to supply the place of Mr. Cameron, should be elect to take the leave to which he will be entitled in May next. It will of course be utterly impracticable to secure the services of an effi cient barrister to act in the capacity of Judge for the limited salary of £400 per annum, and as the present Chief Justice will be entitled at the very lowest computation, to draw one-half of his present salary should he be absent on leave, it will be very desirable to guard against the possible contingency of a vacant bench. We have for the past six months or more, seen one of the offices of the Supreme Court vacant, and it therefore seems not impossible that the same accident might occur should the Bench be vacated without any liberal provision being made for the salary of its occupant, in case of a temporary incumbency. These however, are matters of detail that are entirely foreign to the main question of separate establishments for the two colonies; that is the matter now to be decided, and one of greater importance has never come before the present House of Assembly. The vote on the first item of the estimates must decide a question which will have more weight in the determination of our future government than even a direct vote in favor of union. If the House of representatives pass the proposed resolu tions, they will show the Home Govern-ment by their vote, that that the Colony is not prepared to bear the expense of a separate government, it and will be for the Secretary for the Colonies to determine the next step. Whether, in fact, we are to resume our original status or maintain our present position, or to have any form of government) which shall ally us more closely with British Columbia, than does the present system.

THEATRE.-The performance last night, under the patronage of His Worship the Mayor and family, was very well attended. The two favorite pieces of" Nell Gwynne" and "Jessie Brown, or the Relief of Lucknow," were presented by particlar desire, and produced a nost favorable effect on the audience, who at times were quite enthusiastic in their applause. To-night the indefatigable and veteran actor John Potter takes his benefit. If any one descrees well of the play goers of this city it is their old faithful friend Mr. Potter who has for many months past studied in every capa-city and in every variety of character to afford them pleasure. Mr. Potter presents a very attractive bill including the sensation drama of the Cricket and Cherry's attrac-

Mr. Lawrie, the Secretary of the company, will go up with the pump to Yale, from which point he will make arrangements with the point he will make arrangements with the forwarders to carry it through without delay. The pump weighs about two tons, and the expense of carriage will be about \$2,000. This is the first apparatus of the kind which has been sent to Caribeo, and the Richfield Company are deserving of much credit for the enterprise they display in the undertaking.

We think they are fully deserving of a similar the greatest difficulties by the all encouragement to that afforded to the propretors of the machinery for the upper lake
steamers, viz. a premium equal to the remission of the import duty.

CUTTING AND WOUNDING .- A Tsimpsean Indian named William was brought before Mr. Pemberton yesterday, charged with stabbing and wounding another Indian named Jim, on Humboldt street. Two witnesses were called, who proved the circumstances ander which the assault was committed, the ander which the useaut was committed, the parties having as usual quarreled over their cups. Mr. Pemberton said the Assizes were a long way off, and there might be some difficulty in getting the witnesses together. The mill in question was a genuine stand up fight (without gloves) between two proficients in the 'noble science,' residing in this city, and lasted we understand for an hour and a half, when one of the combatants having become worsted, the sponge was thrown up. The fight we learn took place early in the morning of the election day, and was intended to settle some differences which had occurred between the parties.
